Sun. Mar 29.

Dear Family —

Have been laughing so hard this afternoon. Just came up from one of the girls rooms. Have been there since dinner and it is now 2:30.

We have had marvelous weather this last week - but today the sun isn't out and it's actually cold and snowing!

Couldnt imagine what was in the box when it came. The flowers are beautiful. They weren't a bit wilted or crushed. The hyacinths wasn't crushed at all but the florist must have stolen all of its odor. It certainly made a lovely bouquet.

I am sitting up in bed. Have a clean pair of P. J.'s on. — Am anxious to get my laundry as usual.

Before you had written saying (in your last letter) that I had better not get a hat - I had already decided I wouldn't - so I had my green hat cleaned last week & it looks fine - also had my grey & white dress cleaned

Had two pairs of shoes repaired
which alone cost 3.00. Then the
cleaning bill was 4.25 so you
see it amounted to 7.25. How
money does go - and not
unnecessarily.

Have got my college
bills paid and counting all
the money I have left - it
amounts to \$44 00. I have
to buy music all the time.
Miss. Arnold has begun me
on some English pieces -
that is some of Mendelssohn's
short selections. They are
pretty. I find reading quite
difficult.

Would be nice if you
wrote Agnes Fayes. Also,
Beats says ^{much} you nor Esther
have answered her letters.
Did you get Jean's letter.
She says she hasn't heard
from you. Glad you
can know some of the
girls in a personal
way before you come.
- Had I you said
something about getting to

Worster on the 15th (Wed). If you could get here the 14th (Tue) I could get you to talk in Student Volunteers. For many reasons would it be fine if you could do that. Wish you would write and tell me just when. Hope it is a Tuesday.

I thought mother could come ~~before~~ May 14 - you said something about having a missionary meeting that I did want mother to be here the 15th (Fri) she can visit w "ht" and (Sat) 16th is May day. It would be fine if she could come about (Wed) 13th and stay till the following Tue or Wed. I want her to know here about a week - to understand all that is ours & get every phase of our college life. There will be many many strangers in Worster over the weekend - people from miles around come here for May day besides all the alumni & students friends. - so in order to see Worster as it is to us all the time she'll have to stay

the first part of the following week at least and while she is here (she might not get here again) I want her to get it all. It's too long a trip to stay only a few days when it would be possible to stay longer. Hope you plan now - I certainly am planning and have made arrangements for that weekend - as we have to early - there will be so many here.

I am so anxious to have a talk with you, Dad. Hope that nothing keeps you from coming here on your trip & I can easily get a cheap bunk for you over at the Lodge - That is Mandy is in 5th section (network of future missionary & ministers) & he would be only too glad to take you in. You would

value very much talking
to those fellows. I
certainly hope you plan
to stay over night here.
There are so many things
to talk about. When I
was home, we didn't
have a chance to talk
about my college affairs &
you will be here amidst
them & there will be
so much to tell you &
it will help me so
much. I need it
strength & understanding
advice & help —

I just threw the
ink bottle over to Gato.
She caught it. 

Will probably add
more.

Yours Love
Sean.

6.

After C.E. now! Paul & I went to church. He has quit dancing thru my influence - he says. He is certainly a good fellow at heart.

Glad, remember that letter I wrote you which was nothing but questions concerning you. D. V. B. S. you haven't mentioned any thing about that - and I certainly would like to know - Couldn't you send statistics as soon as possible or bring them with you when you come to Wooten. What I want to know is as much about last year's D. V. B. S. work as possible. I haven't a thing to start on.

Performed my first operation last Fri. Maddy asked Bob & I over to the embryology lab to see some chick embryos. We got 4 good eggs out of 9. I opened one of them. It certainly is wonderful - to see the heart beat after it is out of the egg. even for $\frac{1}{2}$ hr.

Then we went to the concert.
Another fellow there worked with
Boots & Mandy walked
with me. Mandy & I had
a wonderful talk. He is
such a fine fellow &
engaged -

I have decided not to have
any more dates with Cooke
not because of anything
he has said or done in
my presence. Asked the
advice of 2 upper class
girls & Mandy.

Must stop now.
To later
